

DIRECTOR OF CENTRAL INTELLIGENCE
Committee on Imagery Requirements and Exploitation

DCI/ICS-81-5021

22 June 1981

MEMORANDUM FOR: Chairman, Intelligence Research and
Development Council

SUBJECT: Digital Imagery Symposium

1. The Exploitation Research and Development Subcommittee (EXRAND) of COMIREX will conduct a Second National Digital Imagery Processing and Exploitation Symposium over a three day period in the Fall of 1981.

2. The purpose of the Symposium will be to give participants an in-depth insight as to how digital imagery technology will impact on the national imagery Intelligence Community in the 1984-1990 time period. Further, the exchange of digital imagery technology research and development information will assure that all organizations currently developing digital imagery processing and exploitation systems will be aware of possible commonalities between their programs.

3. Subject areas to be addressed during the Symposium include national digital imagery collection and dissemination systems under development, digital imagery basic technology research and development, digital imagery exploitation systems under development, and digital imagery management plans for the mid-1980's.

4. A Symposium Steering Group is being formed with representation from IR&DC, COMIREX, and EXRAND organizations. [redacted] has been contacted regarding the first Steering Group meeting scheduled for 30 June.

Chairman
